Description:

Her vengeance. His vision.

Loom. This world is way more developed and complicated than the Air Awakens Series. And no, they are not related. The beginning of the book feels kind of slow because of all the descriptions and world building, I got a little annoyed about not knowing all the facts and being left to guess, but as the book progresses things start falling in place and I was eager to find out more. Fenthri and Dragons are the main races. A mix of both gives birth to a new one, Chimera. Dragons have magic and Fenthri don't, they used to live independent lives until the Dragon King used his entire forces to submit the Fenthri to his will. After that, the Fenthri are forced to live in casts or divisions, like Divergent. There are 3 main characters: Arianna, Cvareh and Florence. Arianna is Chimera, Cvareh a Dragon and Florence a Fenthri. Arianna and Florence are teacher/students/best friends with a really deep relationship. Cvareh is a Dragon in seek of ways to help overthrow the Dragon Kings empire in order to put his sister on the throne. He seeks Arianna's help in order to get to the Alchemists and fulfill his purpose. These 3 have completely different personalities, they blend, they clash, they explode, they laugh, they forgive, they fight and somehow they start liking each other. There's magic, there's intelligence. This world feels futurist, we have metal, flying things, color, I pictured this as a 5th element kind of environment. I feel Elise Kova has grown a lot in this book. The way she writes, I saw no grammatical errors, the sentiment she put on each character, she even made me like Leona! And thankfully this doesn't end in a horrible cliffhanger. I was truly entertained.
